

NARCAN IS NOW AVAILABLE AT UWT!

Opioid emergencies can happen fast. NARCAN can make a difference.

NARCAN is a brand name medication of a single dose of Naloxone, set up as a nasal spray. Naloxone is a drug that reverses opioid overdose.

NARCAN is designed for people with no medical training. It is easy and safe to use, even if opioids are not present.

Access NARCAN

1. Use the QR code to review information about NARCAN.
2. Then, scroll down and click Narcan Order Form.
3. Complete the training video and answer a few questions.
