[Motion and add discussion about creating a petition supporting expansion in course availability]

Motioned by Senator Wickland and seconded by Senator Yimesgen 9-0-0

Senator Wickland talks about course availability and how that affects professors and students. It is a problem because some classes may be cancelled due to lack of students in a class. Senator Allred in response talked about how she was researching the budget and there are not many course options available because positions are not being refilled because the campus is trying to save up on money. In a survey students can choose more class options which means more faculty. Senator Wickland states that the administration does not hire professors which decreases options and teaching quality. Senator Tran talks about lack of teachers in the biomedical field. The senators all agreed that students on campus want more course actions and senators can talk to the people in position of power can change that. Senator Allred talks about how she is making a survey about budget and an option they can pick is to have more funding for more courses and faculty. Additionally, she states that the petition is a good idea. Senators shared their different perspectives when it came to the petition. Voting for the petition will occur next week. Senators also encouraged each other to talk with their professors, and doing class presentations so students fill out the 4 surveys.
