

1. How much more money can you make in a year if you graduate with a High School diploma than if you *don't* graduate from high school?
2. How much more money can you make in a year if you have a 2-year Associate's degree or some college than if you *only* have your High School Diploma?
3. How much more can you make a year if you have a Bachelor's degree than if you *only* have your High School Diploma?
4. What kinds of things could you buy with \$4,000, \$10,000, or \$25,000 if you had it in your pocket today?
